

Dear Parents,

At Legacy, we believe summer is a time for swimming, relaxing, playing with friends and vacationing. However, during the elementary school years, it is critical that foundational skills such as reading, writing, and math be practiced continuously throughout the summer in order to retain learning. To accomplish this, we post Summer Bridge packets on our website to guide you.

Each Summer Bridge Packet is designed by the Legacy teaching staff with skills specifically designed to “bridge” the summer between each grade level. Although the work is not mandatory, your child will have a tremendous advantage because of skills that are mastered and reinforced through summer practice. Thank you for partnering with us to inspire your children to become college-worthy, character witnesses for Christ.

If you would rather purchase a summer packet we recommend www.summerskills.com. If your student did well academically during this past school year, we recommend purchasing the grade they will be going into for the fall. For ex. *My son just finished 1st grade. I will purchase the book that says “Completed 2nd Grade” for both LA and Math.* You can look at the samples on the website and decide what will be best for your student. Enjoy your summer!

Blessings,

Legacy Preparatory Christian Academy

Pre-Kindergarten Summer Review

Name: _____

A Note to Families

Summer break is a wonderful time for students, however there is always a certain amount of regression that occurs over extended breaks from school.

Completing the Summer Break Review activities will help offset some of this regression.

In this packet you will find:

- ☆ Calendars with suggested literacy and math activities.
- ☆ Sight word cards to cut apart and save for suggested activities.
- ☆ Letter tiles to cut apart and save for suggested activities.
- ☆ Number tiles to cut apart and save for suggested activities.
- ☆ As you will see on the calendar, reading with your student every day is important. Make it fun and enjoyable. Maybe even check with your local library for summer reading programs that offer further encouragement and incentives for summer reading.

Tips

- ☆ If your student does not already know all the color and number words, start out with 5 unknown words and add another 5 each week until all the words are part of the sight word practice time.
- ☆ Have your student include sight words in journal activities.
- ☆ To organize materials, put each set of number tiles and letter tiles in their own plastic bag. For example: Put all of the upper case letters in one bag. Put all of the lower case letters in another bag. And so on...
- ☆ Doing a little something each day is a great way to maintain all the gains your child accomplished this past school year.
