

Language Arts

Summer reading provides students with opportunities to further their reading, analysis, and vocabulary skills and prepares them for the upcoming school year.

Exposure to a variety of genres, authors, and subjects fosters a life-long love of reading . LPCA faculty select books based on literary merit, historical significance, and thematic correlation to their ELA courses.

Students in ELA courses are required to read the assigned novel and should expect that the novel will be assessed in Quarter 1 via formal test, project, or writing assignment.

Additional reading suggestions can be found on the Legacy MS page.

- ELA 600 – A Wrinkle in Time (L’Engle)
- ELA 700 – Carry On, Mr. Bowditch (Latham)
- ELA 800 – Michael Vey (Evans)

Math Skills

Legacy students in both Middle and High School will be using the ALEKS program in their classes throughout the school year.

Students can continue working in their ALEKS Learning Path over the summer to ensure a smooth transition in the fall. ALEKS develops a precise picture of a student's knowledge of the course. In the Learning Path, students can practice and eventually master specific skills in a subject.

While in the Learning Path, ALEKS will provide explanations that include worked examples and immediate feedback on answers. ALEKS continually modifies a student's path to identify and fill gaps and build efficiently on their knowledge base. This builds student confidence and learning momentum.

Math Skills Continued

Current students may continue to work to complete their path from your previous course. If you'd like to move into the path for your fall course, contact cyearwood@legacypca.org.

New students may email Cassandra Yearwood at cyearwood@legacypca.org for subscription information. Depending on start date, a \$20 fee may apply.
